

CALL FOR PAPERS

31st International Conference on Information Systems Development (ISD2023)

Instituto Superior Técnico, Universidade de Lisboa, Lisbon, Portugal

August 30 - September 1, 2023

The ISD2023 conference aims to advance research on the methodological and technological advancements in information systems and how they transform organizations and society.

The conference will be held in Lisbon, Portugal, a thriving European tourist destination renowned for its rich cultural heritage and numerous attractions. It will be hosted by Instituto Superior Técnico, the largest institution of Architecture, Engineering, Science and Technology in Portugal, with a vibrant community of over 10,000 members.

We cordially invite you to join us at this premier event and contribute to shaping the future of information systems development methods and technologies.

SUBMISSION GUIDELINES

The ISD Proceedings will be published in the Association for Information Systems (AIS) eLibrary. In addition, a selection of the best papers (by invitation) will be published by Springer as a separate volume of the Lecture Notes in Information Systems and Organization (LNISO) series (subject to final approval).

The maximum length for submissions is as follows:

- **Full research papers:** 12 pages, including references and appendices.
- **Short research papers:** 8 pages, including references and appendices.
- **Posters:** 4 pages, including references and appendices.
- **Journal-First papers:** The information about the journal paper is indicated in the EasyChair system, and the PDF file of the original publication (of any length) must be uploaded.

All submissions must be in English and submitted to one of the conference tracks through the EasyChair conference management system (<https://easychair.org/conferences/?conf=isd2023>).

For information on paper formatting, please refer to the Submission Details section on the conference website. All manuscripts, except for Journal-First Papers, will undergo a double-blind peer review process. To ensure the anonymity of the authors during the review process, the authors must take measures to remove any personally identifying information from the manuscript.
